

# MC4

## Central Heating System LEAK SEALER

High performance *MC4* from ADEY, the makers of the market leading *MagnaClean*® filter, effectively seals small system leaks and weeping joints.

Suitable for use in both sealed and open vented central heating systems, old and new.

- High performance leak sealer
- Seals small inaccessible leaks and weeping joints
- Reduces pressure loss on sealed systems
- Avoids costly maintenance repairs
- No blocked pumps, valves or air-vents
- Suitable for all heating systems

---

## Physical and chemical properties

Appearance:	Viscous liquid. Emulsion
Colour:	White/Off-White
Odour:	Slight
Solubility:	Dispersible in water
pH (concentrated solution):	7.0
Bulk Density:	1.0 g/cm <sup>3</sup>

---

## Product uses

Sealing small system leaks and weeping joints, the silicone emulsion sealer, *MC4*, effectively reduces pressure loss on both sealed and open-vented systems.

---

## How to use

A 500ml of *MC4* will provide effective treatment for a typical 100litre/ten radiator system.

To introduce *MC4* to the system, we recommend using the *MagnaClean* canister to dose the system.

Alternatively, dose via a radiator or the F&E tank.

*N.B. NOT for use in single feed indirect cylinders.*

---

## Application

*MC4* is suitable for all sealed and open-vented central heating systems, old and new.

*MC4* is not suitable for use in single feed indirect "primatic" cylinders where potable water treatment is required.

---

## Packaging, handling and storage

Available in 500ml plastic containers. *MC4* is non-hazardous and while providing effective treatment is non-toxic and biodegradable. However, as for all domestic chemicals, keep out of reach of children.

Store in tightly-closed, original container in a dry, cool and well-ventilated place. Keep only in the original container.
